WELCOME TO...

Welcome to Santa Pod's Grand Season Finale! Our ¼ mile dragstrip is open for the penultimate time this season! In this show like no other, you can expect to see a huge variety on track from an assortment of fearsome Jet cars, to Drag demos from our seasoned racers, as well as the notorious quick and quirky sessions where a shed with wheels and an engine is the norm! This year's line-up also includes legal street monsters, Oscar and his pending world record Roly Poly bike, a mobility scooter, NASCAR's and more!

The action doesn't stop on track! The famous JCB dancing diggers are back and ready to put on an even bigger and better display than before. Watch some of the best in the business manoeuvre their huge machinery in synchronization. Next to their arena will be Red Dragon; Ever wanted to have a go in a Monster Truck? Now you can... and crush some cars along the way! Not your thing? Head over to the drift rides arena for some tyre screeching sideways action instead!

Experience even more thrills in the Live Action Arena, where world record stunt driver Terry Grant showcases his jaw-dropping skills, Team Maximum Lock delivers precision driving at its finest, and Lee Bowers wows with his outrageous bike stunts. Don't miss our mighty Monster Truck Podzilla tearing up the arena alongside the Dixons wreaking havoc in Swamp Thing! Make sure to get your pictures and chat with the drivers at the Pit Party, too.

Don't miss the BFF's, Ariana Grande, Sabrina Carpenter, Chappell Roan and Olivia Rodrigo performances on the Live Stage as well as the Spooktacular Halloween show with Elphaba, Glinda and friends, and more exciting acts throughout the day with the likes of Bluey and his Paw Patrol pals. Be sure to review the live stage timetable to catch all the performances.

Have a wander round site and flick through the rest of the programme to take it all in. Around the rest of site, you can find Mini Monster truck rides, Pacific Bounce inflatables, Dinosaur meet and greets, show cars and supercars, Action Wheels, Mini Rovers, Fusion Extreme BMX shows, startups from a crackle car and so much more!

Don't leave too early... the live action night show really pulls out all the stops with sparks, smoke and fire as the drivers put the 'Flame' into Flame & Thunder. Between shows, watch our 'Charge of the light parade' on track, then hear the roar of the FireForce Jet Car marking the start of our luminous firework display!

We hope you have a great day!

# ON TRACK - QUICK & QUIRKY

## LEGAL STREET MONSTERS

They're big, they're in your face and they're awesome! These monsters are entirely street legal and will be taking to the track throughout the day. Get your photo with these incredibly modified beasts and find out why they're known as the Legal Street Monsters!

## DRAG DEMOS

Showcasing a range of classes and styles of drag racing, the demos will be putting on a great display throughout the day. From 7 second dragsters, wild alters and hot rods, to road going monsters, super cars and even juniors, you'll get a real flavour for what drag racing has to offer! Unique to drag racing, the pits are open to the public, so go round and get up close with the race cars!

## MOBILITY SCOOTER

This is not your regular mobility scooter... no going down the shops on this one and John Sheppard will be showing you why! You may even see some match racing throughout the day. Who'd have thought you'd either be cheering on a mobility scooter, a shopping trolley or a monocycle!

## SHOPPING TROLLEY

Well, you wanted quick and quirky and believe it or not, this shopping trolley does both! Matt Clark showcases his creation that boasts a 500cc Honda CB engine in something that weighs in at only 150kg! 'Dorris', as the shopping trolley is called, will be taking to the track, so don't miss this one.

## DRAG KARTS

These aren't your ordinary go-karts... these are wild! Watch as they slip, slide and bounce their way down the ¼ mile going anywhere but straight! Believe it or not, expect sub-10 second runs from these crazy machines!

## NASCARS

We do straight lines; these machines do ovals! Get up close and personal as Jon Mann and Steve Stretton bring their NASCARs for all to see. We may even get the chance to see how these corner loving machines cope with straight lines!

## MONOCYCLE

You've probably never seen anything like it... a motorcycle monowheel that's quicker than you you'd think! Tom Anable from Anable Motorcycles is known for quirky inventions, a unique burnout routine and nerves of steel. All demonstrated on track as he takes his monocycle down the ¼ mile.

## JET KART

You've seen the drag karts, you've seen the shopping trolley, now here comes the jet kart! British engineer, Tom Bagnall set a world record on this creation, recording a speed of 112mph! Would you be brave enough to have a ride? Well Tom certainly is!

## ROLY POLY BIKE

Meet Oscar, the fearless rider who's looking at setting the world record for the most Roly Poly's on a bike in a single minute. With nerves of steel, unmatched balance, and a flair for the dramatic, he's perfecting the art of roly polying.

## KEVIN NICKS

Famously known for the 'Fastest Shed In The World', Kevin Nicks will be here to show off some of his creations! Previously, we've seen the shed, a wheelbarrow, a record breaking BMX, a rideable gazebo and even an armchair! What will he bring this time... who knows!

# JETS

## FIRESTORM JET FUNNY CAR

Roger Goring pilots his Firestorm Jet Funny Car. Powered by a General Electric J85 turbojet engine, this Ford Mustang bodied jet is one of only 3 centre driven Jet Funny Cars in the world outside the USA. You can expect 6 second runs along the quarter mile.

THESE FLAME-THROWING JET CARS TAKE TO THE TRACK FOR THE FIERY FINALE OF THE SEASON!

## FIREFORCE 3 JET FUNNY CAR

Martin Hill's FireForce 3 Jet Funny Car is a regular at Santa Pod Raceway and has become the most recognisable car of the FireForce fleet. This jet car has performed all over the world from Iceland to Abu Dhabi but Santa Pod is always the home track. This is the last chance for you to see this car in 2025.

## FIREFORCE 5 JET DRAGSTER

Martin Hill sits in the pilot seat of the FireForce 5 Jet Dragster. The engine is a Pratt and Whitney J60 which produces approx. 10,000bhp meaning that this dragster regularly destroys the quarter mile in the low 5 seconds at over 270mph.

## SPIDERMAN JET DRAGSTER

Since its debut in early 2022, Spiderman has become a firm favourite with the kids thanks to the stunning airbrush livery. Pilot, Julian Webb had this dragster custom built and the name is a nod to his dad, Roy Webb, who ran a Comp Altered in the 1980s called Spider-man. Make sure to pay him a visit over the weekend.

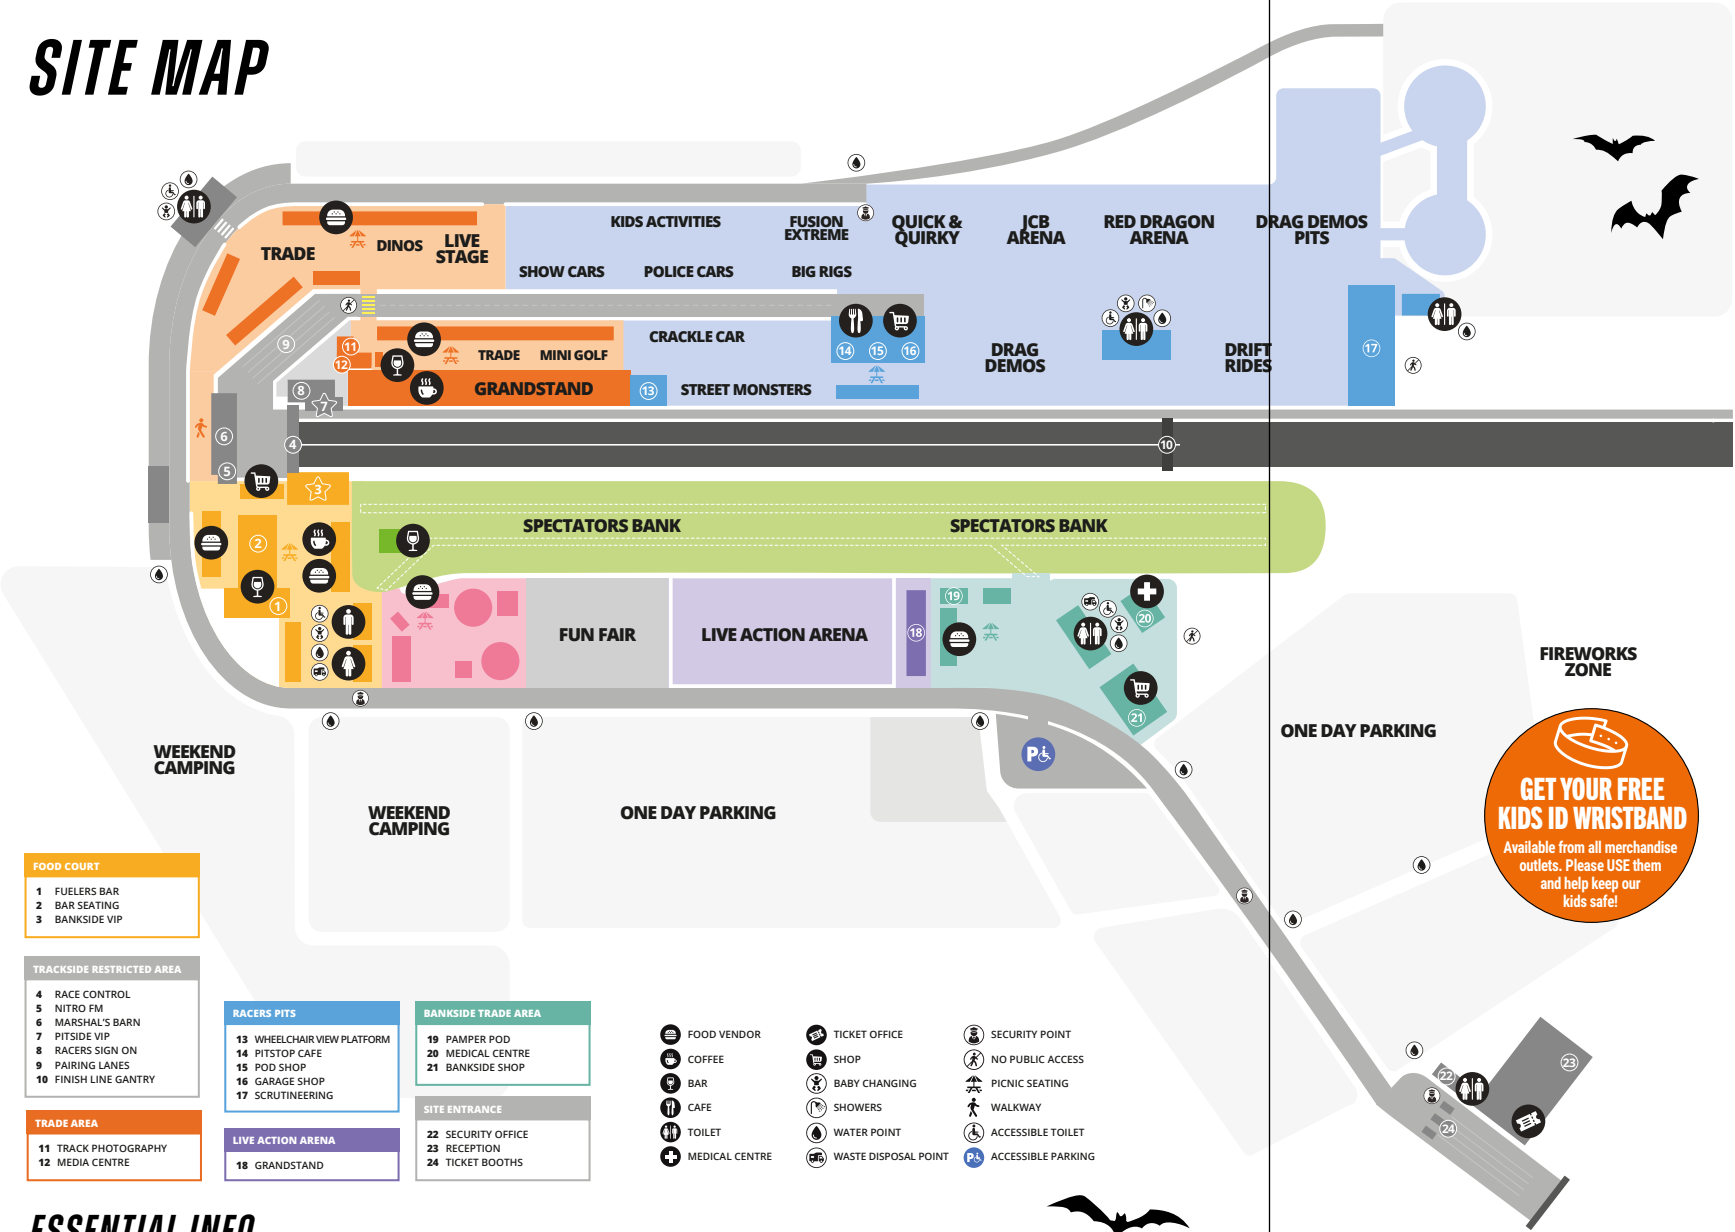

## OKLAHOMA WILLY JET BUS

A jet powered 1958 VW Pickup with a Rolls-Royce Viper 535 engine is definitely one of the quirkiest vehicles to be seen at Flame & Thunder. This exquisite piece of engineering will certainly turn heads as pilot Perry Watkins gets behind the wheel of Oklahoma Willy.
