TRUCK TAKEOVER

WELCOME

Welcome to **Truck Takeover**, powered by Brian Currie Ltd!

Following a hugely successful debut in 2025, Truck Takeover is back, bigger, bolder, and set for an action-packed weekend celebrating everything truck. From beautifully restored vintage classics to the latest head-turning modern designs, get ready to experience the very best up close.

Think your truck or van has what it takes to stand out from the crowd? Enter the **Brian Currie Ltd Show & Shine** for your chance to win cash prizes, trophies, and, of course, ultimate bragging rights. Entry is completely free and you could drive away with the coveted Best in Show title! Take a walk around the site and you'll also discover an impressive lineup of big rigs and legal street monsters on display, as well as a selection of business display stands showcasing some of their beautifully kept vehicles.

The **Liffit Live Action Arena** is packed with entertainment this weekend which will leave you on the edge of your seat. Think havoc-wreaking monster trucks, two wheeling cars and truck drifting – you won't want to miss this one! Head to the arena early on Saturday and Sunday morning to meet the drivers up close and collect their autographs on the last page of this programme.

In between shows, the action doesn't stop. We've got a truck pulling competition, recovery demonstrations and airbrush demos to keep the excitement going. And, if you find time between all of this, why not hop on the back of Red Dragon monster truck for a ride, or take a seat in the racing simulators to test out your driving skills?

Make sure you're trackside for the Fireforce 5 Jet Dragster runs, mixed in with some truck demos and public track time. On Sunday, you'll also see our Street Weekend racers return to put in their final runs for the weekend, chasing low ETs and fast speeds to take home the win.

Finally, remember to keep up to date with the weekends action by tuning into **Truck Radio** as they proudly present Truck Takeover this year – available online or on their app.

We hope you have a trucking good time!
